

WIRELESS DATA ACCESS)))

Using our Wireless Data Access service allows you to not only view data in real time, but also download the data.

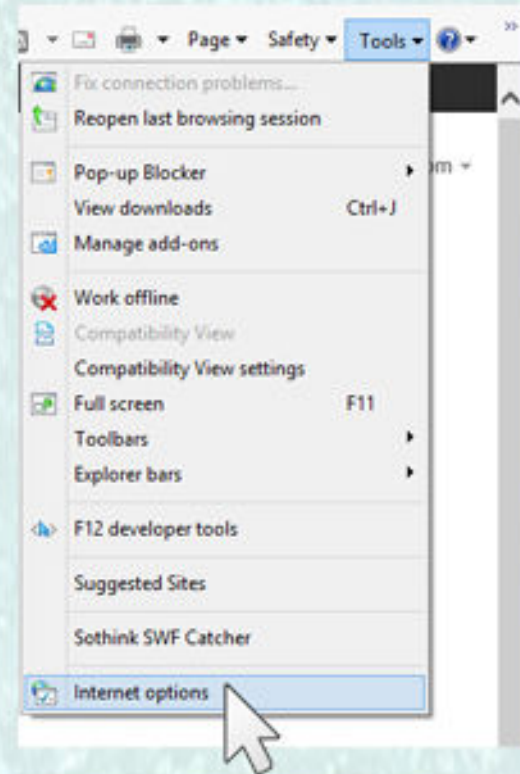

If you are experiencing problems, first, try disabling your pop-up blocker, open Internet Explorer, and go to Tools, then Pop-Up Blocker, and select Turn off Pop-Up Blocker. You can turn it back on after your downloads have finished.

If the above steps still do not allow the download or save as window to open, the following steps will help you change your Internet Explorer settings.

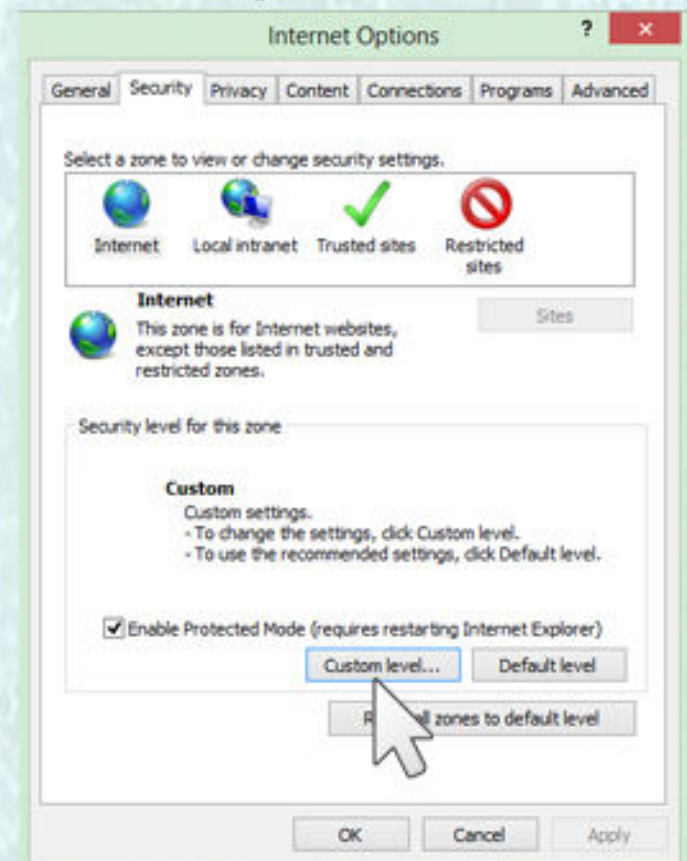

1. Open Internet Explorer

2. Click on Tools, then Internet Options

3. Select the Security tab, then click Custom Level...

4. Scroll down until you see Downloads, under File Download, select Enable. Click OK, then on the next window, click Apply and OK.

Restart Internet Explorer and you should now be able to download.
